Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 3-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Yamada (U.S. Patent No. 5,548,350). Yamada teaches a rear projector comprising a housing that has a front side thereof defined by an opening edge portion (defined by 2 for example), a screen panel 1 that is slightly larger than the opening of the housing and attached to the front side of the housing such that the opening edge portion of the opening and a periphery of the screen are opposed to each other (figures 4b, 4c) the screen panel receiving projection light from a rear side (col. 1, lines 9-10) by a video projector within the housing (col. 2, lines 4-7). A dust proofing elastic member 5 is disposed between the periphery of the screen panel and the opening edge portion. The screen panel is attached to the housing. The dust proofing elastic member is formed of a
